Santa's Wobbly Sleigh

28 passes | ~3 min read | Everyone | **LEFT** = pass left · **RIGHT** = pass right

It was Christmas Eve at the North Pole, and Santa was **RIGHT** on time — or so he thought. He climbed into his sleigh, looked **LEFT**, looked **RIGHT**, and shouted, "Ready, reindeer?"

Dasher stood on the **LEFT**. Dancer stood on the **RIGHT**. And little Comet stood **RIGHT** in the middle, chewing a candy cane he was not supposed to have.

"Off we go!" cried Santa. The sleigh leaned **LEFT**. Then it leaned **RIGHT**. Then it leaned so far **LEFT** that a big red present slid **RIGHT** off the back!

"Stop!" called Mrs. Claus, running out in her slippers. She picked up the present, turned **RIGHT**, then turned **LEFT**, and could not remember which way the sleigh had gone.

An elf pointed **RIGHT**. Another elf pointed **LEFT**. A third elf pointed straight up, because that is where flying sleighs usually go.

Meanwhile, high above the clouds, Santa checked his list. "Hmm," he said, "one present is **LEFT** out." He pulled hard to the **RIGHT**, swooped **LEFT** around a snowy mountain, and zoomed **RIGHT** back home.

Mrs. Claus was waiting **RIGHT** by the barn door with the present in her arms. "You **LEFT** this behind," she said, smiling.

"You are **RIGHT**, as always," laughed Santa. He tucked the present on the **LEFT** side of the sleigh, then moved it to the **RIGHT** side, just to be safe.

This time the sleigh did not wobble **LEFT** or **RIGHT**. It flew straight and smooth all night long, and every present arrived **RIGHT** where it belonged.

And the present that was **LEFT** behind? It is **RIGHT** in your hands. Merry Christmas — it's yours to keep!
